

Wireless Strobe Siren

TECHNICAL SPECIFICATION

WIRELESS STROBE SIREN

Operation voltage	DC12V
Standby current	≤10mA
Work current	200-300mA
Rechargeable standby battery	7.4V 200mA
Siren volume	110dB
Transmitting distance	30-50 meters indoor, 100 meters in the open area.
Operating temperature	-10°C~ +70°C
Backup battery	200mAH(standby time:6.5 hours)

MODEL: L-SAWSS
